HARBOR

OPERATIONS BRIEF

Harbor performance report

A synthetic report that exercises responsive, print, PDF, and tabular states.

Period: 2026-07-01 to 2026-07-22 · Scope: all synthetic terminals

Executive summary

On-time movements

94.8%

+2.1 pp against prior period

Handled units

12,840

Native numeric value in XLSX

Watch items

7

Requires operational review

Average cycle

3h 18m

Synthetic duration

Operational context

North terminal

Stable flow with the highest handled volume.

East terminal

Two watch items remain within the service window.

South terminal

Capacity recovered after a synthetic maintenance event.

Movement detail

Synthetic movement records

Date	Terminal	Reference	Status	Units	Cycle (h)
2026-07-01	North	AH-1000	On time	80	2.10
2026-07-02	East	AH-1001	On time	97	2.45
2026-07-03	South	AH-1002	On time	114	2.80
